## Robert Kitto - Brass Cord Suspension Lighting Fixture Installation Instructions

### Required Components

1x Robert Kitto Brass Cord Suspension

1x Globe (not included)

1x Shade (sold separately)

2x Fixing Screws (not included)

### Assembly Instructions

1. Have licensed electrician provide ceiling lighting point in location as instructed by customer.
2. Provide two holes in ceiling mounting surface (use fitting backplate as guide), levelled as per instruction from customer. Provide and install wall plugs (as required) into drilled holes.
3. Have licensed electrician connect and terminate the live, neutral and earth conductors using the connectors provided. Electrician to test fitting and cable terminations and issue CoC.
4. Align fitting with plugged holes in mounting surface and tightly install fixing screws.
5. Install B22 globe (max 60W) - not included.
6. Install shade accessory by undoing bottom shade ring, placing shade flush with top shade ring, and re-tightening shade bottom ring. Shade sold separately.
