Robert Kitto - Wall Lantern Lighting Fixture Installation Instructions

Required Components

1x Robert Kitto Wall Lantern

4x Fixing Screws

Globe(s) (not included)

Shade(s) (sold separately)

Assembly Instructions

1. Have licensed electrician provide lighting point in location as instructed by customer.
2. Provide four holes in mounting surface (use fitting backplate as guide), levelled as per instruction from customer. Provide and install wall plugs (as required) into drilled holes.
3. Have licensed electrician connect and terminate the live, neutral and earth conductors using the connectors provided. Electrician to test fitting and cable terminations and issue CoC.
4. Align fitting with (plugged) holes in mounting surface and tightly install fixing screws.
5. Install globe(s) (max 60W) - not included.
6. Install a shade by removing outer shade ring, placing shade on inner shade ring and re-fastening the outer shade ring.
